This exploded view diagram illustrates the assembly of a mechanical system, likely a pump or motor unit. The components are numbered 1 through 41. The main assembly consists of a large frame (1) supporting a motor/pump unit (2). A vertical pipe (3) is connected to the motor. A horizontal pipe (4) is connected to the side of the motor. A large, curved pipe (5) is connected to the bottom of the motor. A large, curved pipe (6) is connected to the side of the motor. A large, curved pipe (7) is connected to the bottom of the motor. A large, curved pipe (8) is connected to the side of the motor. A large, curved pipe (9) is connected to the bottom of the motor. A large, curved pipe (10) is connected to the side of the motor. A large, curved pipe (11) is connected to the bottom of the motor. A large, curved pipe (12) is connected to the side of the motor. A large, curved pipe (13) is connected to the bottom of the motor. A large, curved pipe (14) is connected to the side of the motor. A large, curved pipe (15) is connected to the bottom of the motor. A large, curved pipe (16) is connected to the side of the motor. A large, curved pipe (17) is connected to the bottom of the motor. A large, curved pipe (18) is connected to the side of the motor. A large, curved pipe (19) is connected to the bottom of the motor. A large, curved pipe (20) is connected to the side of the motor. A large, curved pipe (21) is connected to the bottom of the motor. A large, curved pipe (22) is connected to the side of the motor. A large, curved pipe (23) is connected to the bottom of the motor. A large, curved pipe (24) is connected to the side of the motor. A large, curved pipe (25) is connected to the bottom of the motor. A large, curved pipe (26) is connected to the side of the motor. A large, curved pipe (27) is connected to the bottom of the motor. A large, curved pipe (28) is connected to the side of the motor. A large, curved pipe (29) is connected to the bottom of the motor. A large, curved pipe (30) is connected to the side of the motor. A large, curved pipe (31) is connected to the bottom of the motor. A large, curved pipe (32) is connected to the side of the motor. A large, curved pipe (33) is connected to the bottom of the motor. A large, curved pipe (34) is connected to the side of the motor. A large, curved pipe (35) is connected to the bottom of the motor. A large, curved pipe (36) is connected to the side of the motor. A large, curved pipe (37) is connected to the bottom of the motor. A large, curved pipe (38) is connected to the side of the motor. A large, curved pipe (39) is connected to the bottom of the motor. A large, curved pipe (40) is connected to the side of the motor. A large, curved pipe (41) is connected to the bottom of the motor.
